## DISEASE IS NOT REPORTED TO INSPECTOR OPERATED ON NEW BUSINESS HOUSES AT THE DEE HOSPITAL

Sanitary Inspector George Shorten is experiencing difficulty at present with that class of people who attempt to hide evidences of disease in the home. At this time there are four cases of measles in the city that have been reported to the health officer and the inspector has strong suspicions that there are many other cases which have not come to his attention.

Because of the fact that a case of measles does not always result in the serious illness of the patient, many people do not call in a physician when the disease develops. If the child has been attending school he is kept out during the course of the disease and is sent to school again when the evidence of the illness has disappeared. Since the disease is of a most contagious nature, many contract it when no quarantine is established.

There are ten cases of smallpox in the city, five of which are confined in the pest house. Mrs. Hattie Bromm will be released from quarantine today, but the inspector will not allow the restaurant conducted by her to be opened until after a rigid cleaning.

### Fertilizer for Lawns.

Why use the unsightly weed-producing manure around your front entrance all winter? You can buy a pure fertilizer, free from weed seeds at \$1.50 per cwt. It requires 10 lbs. to 10 square feet of lawn. Should be applied in early spring by sowing broadcast and watering immediately after application. Will produce a beautiful clean, velvet green lawn. It is far superior to manure. Ogden Packing & Provision Co. (Advertisement)

## CHAMPION IS TO BE SEEN IN OGDEN

"Willie" Ritchie, the champion lightweight boxer of the world, is to entertain the people of this city at the Orpheum Wednesday night, and it will be a rare entertainment in sport. He will be accompanied by his manager, "Bilby" Nolan, and, also, a sparring partner.

Manager Nolan says that while the sparring partner is a good one, he should like one of the local boys, the best in the city, to "go on" with "Willie" just to eliminate the "exhibition" idea. "Willie" will not disfigure the local lad's face, but if he is a pretty good one, the sparring will be lively. To add to the attraction Manager "Joe" Goss of the Orpheum says he will also introduce a short program of vaudeville and pictures.

## SALT LAKE IS TO ENTERTAIN SHEEPMEN

Salt Lake City was chosen as the convention city for 1914 by the National Wool Growers' convention in Cheyenne today. Frank J. Haggenbath of Idaho was chosen president.

Western vice president—M. J. Powers, Flagstaff, Ariz.  
Eastern vice president—A. J. Knoll, Chicago.

Secretary—S. W. McClure, Gooding, Idaho.

Treasurer—F. D. Miracle, Helena, Mont.

The report of the resolutions committee was to be considered this afternoon.

Too Much Snow—"Bilby" Wilson reports that there is enough snow in the mountains now to greatly retard work in the timber and that he will cease operations for a while.

## Why Endure Pimples and Blackheads?

If you wish a skin clear of pimples, blackheads and other annoying eruptions, begin today the regular use of Cuticura Soap assisted by Cuticura Ointment. No other method is so agreeable, so often effective and so economical.

TREATMENT:—Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores, the common cause of these distressing facial eruptions and other unwholesome conditions of the complexion and skin.

You need not try them until you are cured. Cuticura Soap and Ointment are sold everywhere. Write for free booklet, "How to Cure Pimples and Blackheads." Cuticura Soap and Ointment are sold everywhere. Write for free booklet, "How to Cure Pimples and Blackheads."

At the Dee hospital at 7 o'clock this morning Miss Eleanor Healy, daughter of M. J. Healy, 114 Twenty-seventh street, was operated on for appendicitis, but at noon she had not fully recovered from the effects of the anesthetic. She had suffered of peritonitis and was thought to be recovering when she was suddenly taken down with appendicitis and hurried to the hospital yesterday afternoon.

Antone Mellon of Wendover, Nev., was taken to the hospital last evening for treatment.

Miss F. Champion was released from the hospital this morning greatly improved. She had been in the hospital more than a month.

## YOUNG PEOPLE IN AMATEUR PRESS CLUB

To increase their knowledge of current literature and secure practical experience in writing, a group of young people from the Ogden High school and other educational institutions of the city have organized a branch of the United Amateur Press association. The following officers have been elected:

Bernard Devoto, president; Josephine Taggart, vice president; Mabel Mores, secretary and treasurer; George Stoddard, corresponding secretary; and T. M. Henley of the Ogden High school English department, literary director.

Meetings will be held in the High school auditorium every first and third Thursday evenings of each month. The meetings will be open to the public and an invitation to join the organization is extended to any one interested in literature and writing.

The members have decided to take up the American short story for study and, with that object in view, will read and discuss the best examples of short stories at the first few meetings.

They have also decided to secure the services of a practical journalist who will lecture to them on journalism. It is probable also that a story-writing contest will be inaugurated for the purpose of bringing out the literary qualities of the members.

The United Amateur Press association was organized several years ago in Grand Rapids, Mich., and at the present time has a branch organization in almost every large city in the United States.

## NO BREWERY "AD" ON PHONE BOOKS

As a result of the campaign inaugurated last fall by the local branch of the Women's Christian Temperance union, the advertisement of the Becker Brewing & Malting company will not appear upon future editions of the telephone directory. The chairman of the committee appointed by the local W. C. T. U. to protest against liquor advertising on the cover of telephone books has received a definite answer. The following letter was received from the Denver office of the telephone company:

"The protest of recent date against the advertising of the Becker Brewing & Malting company, appearing on the back cover of our Ogden directory has been referred to this office. The objections have been carefully noted and as it is the desire and intention of this company to always treat its subscribers fairly, we have decided to comply with your request. The advertising contract in question has been cancelled and the advertising to which you objected shall not appear again."

"We trust this action will meet with your approval. (Signed) 'C. W. TUCKER, Manager'"

## AUTO HELD ON MECHANIC'S LIEN

The suit of L. H. Becraft against Joseph H. Bence and Ernest Gray in which the plaintiff seeks to recover possession of a certain automobile, or \$500, an alleged sum due on the machine, and \$250 alleged damages. The defendants, however, were not the purchasers of the machine.

While the defendants have not yet filed their answer to the complaint, it is understood that they are holding the auto for the cost of repairs which they made on it. They claim the right of possession under the mechanic's lien law of the state. The defendants conduct a garage in the city under the firm name of Race & Gray.

## Continues Business

The Household Fair, 2340 Wash. Ave., conducted by C. J. Herrick & Co., wishes to announce, that they will continue business in the future, the same as before. Mr. C. J. Herrick's withdrawal from the company, Mr. D. F. Davis takes the position as manager. (Advertisement)

## Chicago Produce.

Chicago, Jan. 11.—Butter easy; for creameries, 24@25 1-2. Eggs easy; receipts, 3286 cases; fresh receipts, at mark, cases included, 22@25; refrigerated firsts, 19 1-2@20; firsts, 26. Cheese steady; dairies, 16 3-4@17; twins, 16 1-2@17 1-2; young Americas, 16 3-4@17; long horns, 16 3-4@17. Potatoes easy; receipts, 62 cars. Wisconsin, 12@15; Minnesota, 12@17; Michigan, 14@17.

The business district of Ogden has been canvassed by the Merchants' Light & Power company and Manager P. M. Parry states that the company is gratified with the reception accorded. A number have signed contracts with the company and the current from the company's plant is being connected with the business houses as fast as the linesmen are able to do the work. Several stores are now using electricity from the Merchants' plant.

In addition to the flat rate of 10 cents, a sliding scale is used in various cases depending upon the consumption of power in the business houses.

After the commercial district has been cared for, the efforts of the company will be turned to the residence part of town. Up to this time they have not solicited patrons outside the business streets, but intend to do so beginning February 1.

Ogden Homestead 1505 Brotherhood of American Yeomen will meet hereafter in Caledonia hall, Howell building, second and fourth Tuesdays. All members are requested to be present next Thursday evening, January 11, as there will be installation of officers.

## GANG TO WORK ON THE GAS HOLDER

Material for the steel gas holder, which is being erected by the Utah Light & Railway company is arriving daily and it is expected that within the next few days a force of steel workers and boilermakers will begin the construction of the big tank.

The contract for the building of the holder was let to J. J. Burke & Co., but it is expected that Roy Sheedy, the steel construction contractor, will aid in placing the steel.

The concrete base has been completed and it is a question of only a few days and the moderation of weather conditions when the balance of the construction will be started.

## JOINT BUILDING WILL NOT BE ERECTED

At the regular meeting of the Weber county board of education this afternoon the members decided that sufficient funds are not available to warrant co-operation with the city school board in the matter of building offices to be used by the two boards.

The plan as broached several weeks ago was to have the city and county schools consolidate to erect a building near the city hall that would be used by both for office and meeting purposes.

A committee was appointed last Saturday to meet with the city commissioners to go over the proposed plans carefully with the view to deciding whether the county board could join in the proposition. The committee reported the result of their conferences at the meeting today.

## SENATE WILL VOTE MONDAY

Judge R. W. Archbald Impeachment Charges to Be Decided

Washington, Jan. 11.—The senate agreed today to vote at 1 p. m. Monday on the impeachment charges against Judge Robert W. Archbald of the commerce court.

## BOISE MEN OUT OF JAIL

Capital-News Editor and Publisher Given a Great Ovation

Boise, Idaho, Jan. 11.—R. S. Sheridan, editor of the Capital-News, and A. R. Craven were given an ovation when they walked from jail after having served ten day sentences for contempt of court. When the two former reached the office of their newspaper from Colonel Roosevelt that was held in contempt by the Idaho supreme tribunal, they found floral offerings sent by prominent persons from all over the country.

As a result of the movement started by State Senator Dow Dunning to collect money by penny contributions to pay the \$500 fines assessed by the court, nearly half of the neces-

sary amount has been received. Contributions have come from every state of the union.

Among the contributions was \$10 from Henry E. McGinn, federal circuit judge of Oregon, with the wish "that heaven's choicest blessings may be and abide with you and yours evermore."

## PROMOTIONS CONFIRMED

First Break in Senate Deadlock Over Taft Appointments

Washington, Jan. 11.—The first break in the deadlock over President Taft's appointments, pending in the senate, came today when, at an executive session, Brigadier General James B. Aleslie was confirmed as a major general, and Surgeon General George M. Toner was confirmed as a brigadier general.

This action followed a morning caucus of the Democrats, but the lines are still so sharply drawn between Republicans and Democrats that no further confirmations are expected in the immediate future, except in army and navy and diplomatic departments.

The deadlock between the Democrats and Republicans is expected to continue over the majority of the 1,300 nominations pending in the senate.

## DIVIDEND OF MAY DAY IS DECLARED

As expected by shareholders, the directors of the May Day Mining company, at their meeting Thursday afternoon, declared a quarterly dividend of 3 cents a share, which will be paid on February 10, the books closing on February 1. This calls for the payment of \$24,000, there being 800,000 shares of stock outstanding. While no statement was issued showing the average earnings of the company, it was made clear by those acquainted with conditions that the May Day easily is earning well above dividend requirements, and with anything like adequate railroad car service these earnings will be far more generous.

To date, the May Day company has paid \$108,000 in dividends, making the last disbursement in September, 1908. This profit money was wrung from the bodies of silver and lead ore during the past years of operations from the surface to the tenth level. It was in developing these silver-lead ore bodies that the management throughout former years ran across the zinc ore, and zinc ore, therefore a hateful and hated product has now been converted into a blessing that is measured by dividend material.

The May Day was about the first Tintic company in 1912 to appreciate that its zinc ore tonnages might be brought into available form as a result of the wide spread in the price of spelter. When the possibilities of this zinc ore were set forth in The Tribune during the early summer there were very few, even among shareholders, who gave this new phase of the property any serious credence. But when the management began shipping its zinc tonnage to the middle west smelters, and when other companies began to follow suit and earnings began pouring in where there had been deficits and assessments, the world began to sit up and take notice.

Shareholders, therefore, have a combination of circumstances to thank for this happy consummation of May Day affairs. The world-wide scarcity of zinc picked spelter up from an average of 5.608 cents per pound in 1911 and lifted it to 6.799 cents for an average of 1912. St. Louis prices thereby opening the doors for the sale of a large Utah zinc ore tonnage. The May Day management deserves credit for its courage in going after the zinc ores which therefore had been a wholly unknown factor while everyone connected with the company has reason to congratulate themselves that they hold a piece of Tintic property so capable of adapting itself to the changing conditions of the metal market.

Attention has been called in these columns before to the fact that the

May Day heretofore in its lead ore shipments has had to pay a penalty on all the zinc contained in the ore above a certain dead line. Now the company has to pay a penalty upon the lead contained in the zinc ore above a certain point. But there is profit in shipments either way.

## SURPRISE PARTY.

Miss Marcella Dinsdale was pleasantly surprised last evening by a number of her young friends who called on all the zinc contained in the ore above a certain point. But there is profit in shipments either way.

The hours following the surprise were spent in playing children's games, which interested the young people very much. The young hostess also played a number of piano selections which were enjoyed.

A tasty luncheon was served at 10:30 p. m., shortly after which the guests departed for their homes.

Those present were: Misses Valbert Knowlton, Gwyn Williams, Buena Faulkner, Aurilla Faulkner, Amelia Spanb, Ethel Williams, Lisle Lander, Myrtle James, Edna Nielson, Victoria Stanger, Edna Richardson, Marguerite Dinsdale and Marcella Dinsdale. Masters Lester Faulkner, Hilker Williams, Rees Williams, Orin Williams, Edward Richardson, Harry West, Daniel Shupe and Wayne Anderson.

## MORE COLD REPORTED.

Los Angeles, Jan. 11.—Temperatures below the freezing point were again reported last night in all of the larger citrus fruit districts, but growers declared today that little additional damage had been done. The weather bureau, however, predicted it would be several degrees colder tomorrow. Heavy frosts were the rule throughout the district but the sun's rays aided by the moisture from the rain two days ago, overcame the effects of the cold.

## Sugar.

New York, Jan. 11.—Raw sugar was steady; muscovado, 89 test, 2.38; centrifugal, 96 test, 3.48; molasses, 89 test, 2.73. Refined steady; crushed, 3.40; granulated fine, 4.70; powdered, 4.80.

Funeral Sunday—Funeral services for John Lindstrom will be held at 10 o'clock tomorrow afternoon at 2:30 o'clock, and the body will be sent to Laramie, Wyo., in the evening for burial.

## UNCLE SAM TO KEEP EYE ON MR. CASTRO

Unless General Cipriano Castro, the former dictator of Venezuela who is now in the United States, decides to leave this country very soon his every movement will be closely watched by Uncle Sam. Castro would like to regain his power in the South American republic and it is believed would attempt another revolution there, with his headquarters in the United States if given the opportunity.
